

CODEX

Transform Your Coding Journey from Novice to Industry-Ready Professional

FIRST YEAR: BUILDING YOUR FOUNDATION

LEVEL 1: Embark on Your Coding Journey

- Master the C programming language through structured, hands-on learning modules
- Get introduced to your chosen specialization path (Web Development, Android Development, or AI/ML)
- Gain early insights into placement processes and strategic preparation techniques used by top performers

LEVEL 2: Expand Your Horizons

- Transition smoothly into C++ fundamentals with our guided learning approach
- Create and showcase your first mini-project in your specialization track
- Compete in weekly contests exclusively for first-years, building confidence in a supportive environment

FIRST-YEAR OUTCOMES:

- Strong command of a programming language with practical application skills
- Early exposure to industry-relevant specializations
- Experience in competitive programming environments
- Preparation mindset developed years ahead of placement season

EXCLUSIVE REWARDS:

- Top 3 leaderboard performers each semester receive premium tech gadgets
- Certificate of Excellence

SECOND YEAR: STRENGTHENING YOUR SKILLS

LEVEL UP YOUR TECHNICAL ARSENAL:

- Comprehensive Data Structures fundamentals with visualization tools and practical implementations
- Weekly coding challenges that progressively increase in complexity
- Structured learning paths for your specialization aligned with current industry demands
- Specialized mentorship sessions with senior students excelling in your chosen field
- Intra-college year-wise competitive programming contests to broaden your perspective

SECOND-YEAR OUTCOMES:

- Solid grasp of core data structures and their applications
- Portfolio of small but impressive projects in your specialization
- Improved problem-solving speed and efficiency
- Growing confidence in tackling technical challenges
- Network of peers sharing similar technical interests

ACHIEVEMENTS UNLOCK:

- Top performers gain exclusive internship opportunity

THIRD & FINAL YEAR: ACCELERATING TOWARD INDUSTRY READINESS

PLACEMENT PREPARATION INTENSIFIES:

- Complete DSA curriculum from foundational to advanced concepts with targeted practice
- Daily DSA problem-solving regimen customized to your strengths and weaknesses
- Industry-standard projects in your specialization track with professional code reviews
- Weekly high-stakes contests simulating placement competition environments
- Comprehensive aptitude assessment modules based on previous campus recruitment patterns
- Exclusive access to our database of interview experiences and insights from successfully placed seniors

THIRD-YEAR OUTCOMES:

- Advanced problem-solving capabilities across multiple DSA domains
- Industry-relevant project portfolio demonstrating specialization proficiency
- Strategic approach to company-specific preparation
- Clear understanding of placement processes across different company types

ELITE ADVANTAGES:

- Personalized feedback on your technical resume
-

WHY CHOOSE CODEX?

- Systematic Progression: Year-by-year approach ensuring consistent growth
- Industry Alignment: Constantly updated curriculum reflecting current market demands
- Community Support: Learn alongside peers facing similar challenges
- Proven Track Record: Success stories across top tech companies
- Complete Solution: From programming basics to placement success
